

# EUGLOH NEWSLETTER

EUGLOH: 9 universities, 1 alliance, 1 goal

## EUGLOH News January 2024

### Let's see what is new at EUGLOH!

Starting the year fresh, the EUGLOH community has a lot to offer, just as usual! 😊

Let's see what opportunities await within EUGLOH!

Our **internal EUGLOH newsletters** arrive biweekly, this time featuring the latest events of December and plans for the new year. 📅

- 👉 Interested in sharing your news?
- 👉 Have any questions or comments on the newsletter?

## EUGLOH Visiting Lecturing Program - Already a success!

The EUGLOH Visiting Guest Lecturer Programme enables teachers to offer guest lectures and make it easy for course leaders to find lecturers among their EUGLOH colleagues. It may also enable contacts that can lead to the creation of joint courses, joint programmes, or transnational teaching innovation groups, or any other type of collaboration.

In the pilot phase of this programme, EUGLOH facilitates for course/module coordinators (mainly bachelor's and master's degree level, although other teaching activities can be considered) the participation of EUGLOH colleagues when teaching their subjects. The mobilities can be virtual, physical, or blended. A physical mobility can be funded by the Erasmus+ Programme at lecturer's home university if it meets the Erasmus+ requirements.

### Background

Mobility of academic staff, either physical, blended, or virtual, is a key aspect in the internationalization of higher education and one of the main priorities of the European Commission in the field of education.

The teacher mobility will also become an important tool to improve the quality of the study programmes both in the sending and receiving institutions. It is expected to have a positive impact on the individual teaching skills and the career development of academic staff.

### Teaching opportunities

- If you wish to be Guest Lecturer, you should contact the proposer of the opportunity and agree on the details of the activity, mobility, etc.
- If you have sent a proposal, and you find any mistake, please inform through [EUGLOH UAH](#) to correct it.
- If you have any issue related to this programme, you can email your EUGLOH local contact to get support.

**Please, find below all the teaching opportunities classified by disciplines, a total of 111. Let's what you can make of this possibility!**

**Follow THIS LINK to check out colleagues' classes and see if you can join them!**

## EUGLOH ON THE MOVE!

**The first EUGLOH Connected Walking Challenge! Let's prepare for the Olympics together!**

Want to win? Let's show the Alliance how active the USZ EUGLOH community is!

To kick off this **Olympic year**, **EUGLOH is launching a challenge through a mobile app** designed to enhance global health across the nine campuses of the Alliance. As a positive start to the year, assess your physical activity level while connecting with friends and colleagues!

We invite **every member of the EUGLOH community** –undergraduates, master's, Ph.D. students, researchers, and staff—to participate. The project spans **from January to June 2024** and encourages participants to elevate their physical activity levels.

👉 The more your team walks, the more points you'll earn. Connect with others in the app to form your team (international teams are highly encouraged).

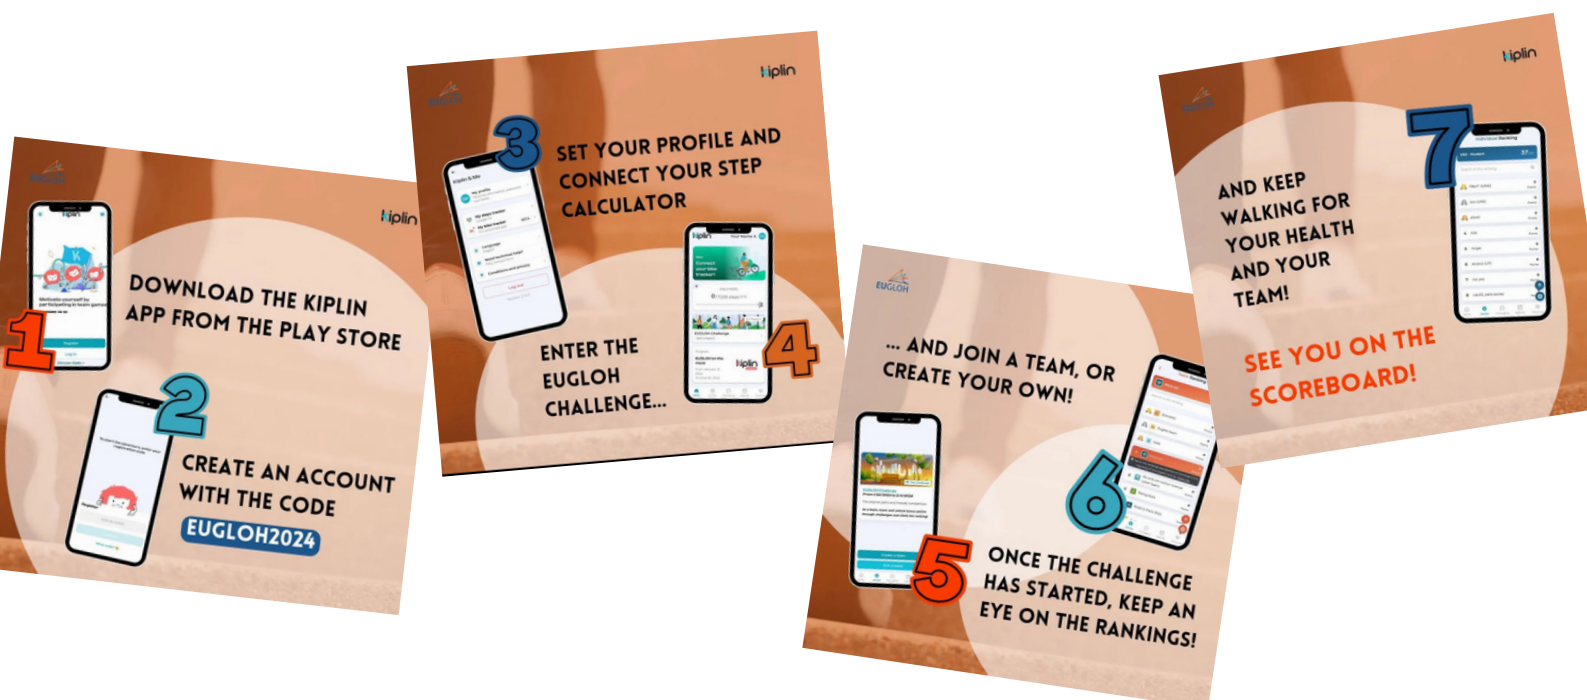

🏆 For top-performing students, a blended intensive program focusing on health, physical activity, and the Olympic Games will be offered in Paris, France, in September. Get ready to move!

What to do to enter?

- Download the Kiplin app (available on Playstore and Applestore).
- Create your account with the **access code EUGLOH2024**.
- Join the EUGLOH challenge in the "Games" tab and navigates to the other tabs.

Teams of 5 people will be formed and can be switched over the different challenges. Upon completion, participants can receive a certificate of participation.

# Opportunities in Paris 2024

Let your students know! 😊

For Master and PhD students only

Fancy travelling to Paris while also gaining some expertise?

Now, you can hit two birds with one stone. At the moment, Université Paris-Saclay is offering **11 open training opportunities** in (and uniting) various disciplines – 3D reconstruction, healthcare, biology, and much more.

The internships are mainly for Masters students, but some opportunities are open for PhD students as well.

What do they offer?

- Various disciplines
- Mostly for Master students but could be opened to PhD as well
- Dates in some cases can be taylor-made - candidates are encouraged to ctc the PI and discussed.
- To find the latest offers we posted on the platform, you have to click twice on the tab menu "Data Added"

Please note that the dates are – in some cases – flexible (the 30/11/-1 at the date marks the flexibility of the stay), and in France, **all internships that last longer than 2 months are paid**.

You are highly encouraged to contact the supervisor of the programme to discuss the details. **To find the latest offers, please click twice on the "Date Added" tab on the following [link](#).**

Should you have any questions, please don't hesitate to contact your local mobility staff and/or Christine Ozouf (Christine.ozouf@universite-paris-saclay.fr).

## Upcoming Events
