2023 EUGLOH Photo Contest

winners announcement

SZTE
UNIVERSITY OF SZEGED

Congratulations to the Winners of the 2023 EUGLOH Photo Contest!

Similar to each year, the EUGLOH Alliance announces student contests during the academic year to boost student's involvement and emphasize their importance and impact for the European Alliance for Global Health.

In October of 2023, a **Photo Contest** was launched for the students under the theme **"My campus with a thousand faces"** where students from all the 9 member universities of the EUGLOH Alliance were encouraged to capture moments of tranquillity and relaxation on campus and submit it for the contest to win a chance to travel to Szeged and participate in a photo course.

For detailed information on the contest, [click here](#).

In total, 24 applications were received for the contest providing a glimpse into the vibrant campus life across the alliance. The submitted photos were displayed anonymously to the photo contest jury. Three winners were chosen by a jury composed from delegated members from the 9 institutions.

CONGRATULATIONS TO THE WINNERS!

LMU Munich has been developing a EUGLOH Certificate of Advanced Studies in Global Health Programme. The program is now approved and the application deadline is now set for the 29th February and the **application is now open!**

The EUGLOH Certificate of Advanced Studies in Global Health offers students at LMU Munich and associated partner institutions (including all nine EUGLOH Alliance Universities and CIH Partners worldwide) the unique opportunity to engage in dialogue with different disciplines, experts and peers from various universities about Global Health as a concept and approach to health issues, determinants and promotion, which transcend national and disciplinary boundaries.

The EUGLOH Certificate of Advanced Studies in Global Health is a study programme designed to be completed alongside a students' main degree subject from anywhere in the world. This two-semester programme covers at least 17 ECTS distributed across mandatory and elective modules, allowing students to explore beyond the scope of their current disciplines and gain a broader perspective on the interdisciplinary field of Global Health.
