BIP Still available this June!

Erasmus+ BIP for PhD students at Universität Hamburg 🌟

Topic: **Making an Impact! Skills for Career Paths in and beyond Academia**

👉 The BIP is co-created with the Universidade do Porto, the University of Alcalá and the Arctic University of Norway.

👉 For the call for applications, **follow this link: <https://www.eugloh.eu/events/making-an-impact>**

👉 The application is open to **PhD students** within our EUGLOH alliance.

How many? 😎 **30 international PhD students** will be welcomed in Hamburg.

! The deadline for application is 30 June 2024.

Career planning during the doctoral phase is tricky – focusing on research is highly demanding, planning what comes next in time is equally challenging. The rise of the seemingly ultimate question “Should I stay or should I go?” may trigger uncertainty about both one’s competencies and requirements for future steps.

This EUGLOH activity focuses 1) on transversal skills that PhD researchers gain throughout their journey and 2) on various ways in which science can have societal impact – by actors both inside and outside of universities. For this purpose, you will work on your individual competence profile, learn about research communication and explore sciencepreneurship.

The activity takes place both virtually and physically. The preparatory virtual component (5th and 9th of September, 10:00 - 15:00) provides innovative presentation tools and enables international PhDs to present their research projects. The physical part in Hamburg offers workshops with various experts to prepare PhDs for career paths in and beyond academia. You will identify and develop skills for making an impact – be it political, educational, cultural, economic, or social – in the field of global health.

Please send the possibility about this BIP program to all interested PhD students!
