Intercultural Skills Program: Mentor Training Days in Lund

Let's read what Fanni Rózsa-Leczkési, Viktória Fülöp experienced!

☞ First, let's see the agenda!

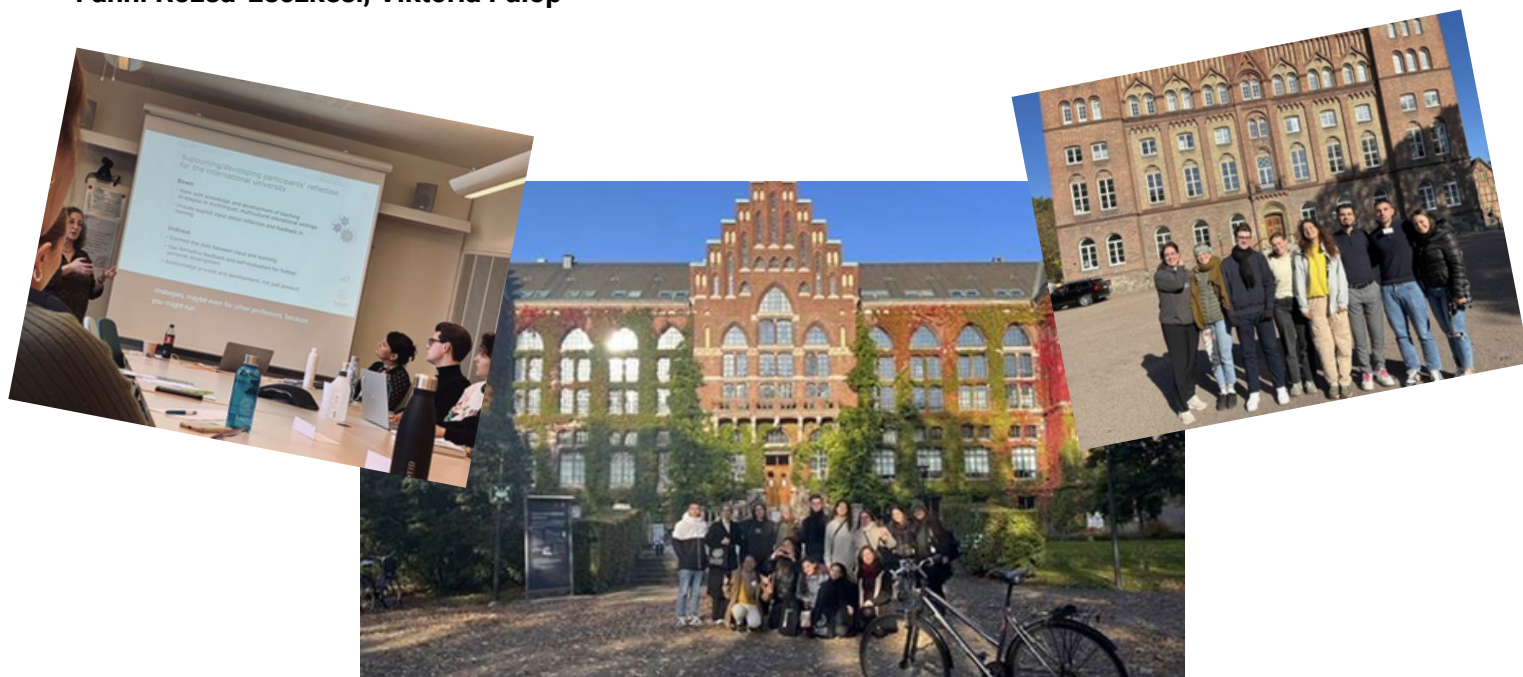

- Introduction to the Interskills programme
- Introduction to Interculturality
- Valuing what everyone brings
- Reflection and methods of discussion
- Supporting students with impairment
- Challenges in intercultural education

📌 "During the training, mentors were trained for the EUGLOH's Intercultural Skills program. The mentors got mentees at their own university, where this topic is discussed and analyzed during several online and personal meetings and lectures.

📌 The coordinators of the EUGLOH team in Szeged and Lund were always ready to help us with the organization of the trip, as well as during our stay there. The fact that we were able to work together interactively with our peers from 8 other universities supported us to become mentors, since we also came to Lund from different cultures and backgrounds. We attended interesting and useful lectures and workshops by, for example, Garo Harwood, Rachel Forsyth and Joyce Kling. Among others, we mentioned the following topics: Introduction to the Interskills program, Introduction to Interculturality, Valuing what everyone brings, Reflection and methods of discussion, Supporting students with impairment, or Challenges in intercultural education. They prepared us on how to conduct the meetings with our own mentees during the program, which will be held in the autumn months of 2024.

🌍 Lund is a beautiful, calm and friendly university town with an amazing campus, natural attractions and clean streets. I am very grateful to be included in the EUGLOH community and already have the opportunity to prove myself in their program as a mentor."

Fanni Rózsa-Leczkési, Viktória Fülöp

Career days at USZ

EUGLOH represented by our Local Student Board 🌟

📍 15 October 2024, the 20th Career Days at the University of Szeged

👉 EUGLOH was there, let's see how!

📍 The members of the EUGLOH Local Student Board represented the EUGLOH Alliance and informed the interested pupils about what opportunities EUGLOH holds for everyone.

During the Career Day held on October 15, EUGLOH was once again represented by local student board members. This event provided a valuable opportunity for students nearing graduation to explore EUGLOH courses available to them while still at university, helping to prepare them for their future careers. Additionally, it offered newly recruited student board members a chance to experience firsthand what it means to represent and promote exciting opportunities. Here is some feedback from two of our new EUGLOH student board members about their experiences during Career Day:

"It was such a wonderful experience. I had a great time talking with our colleagues in EUGLOH and introducing our organization to other students." – Le Tran Tram Anh

"Even though I couldn't participate this time, the booth was so well-organized! I visited at the end of the day, and many of my friends and classmates shared that they voted for EUGLOH as their favorite. I'm so glad—good job, team!" – Hamdan Lujain Ahmad Samih

These opportunities not only introduce students to possibilities they can engage with, but they also provide a platform for student board members to share what they are passionate about.

New members at the Local Student Board!

Welcome everyone on Board 🌟

🌟 New local student board members have joined EUGLOH! From a pool of 44 applicants, 28 students were interviewed, and 12 outstanding individuals were officially selected.

These new members represent **10 out of 12 Faculties at the University of Szeged**, covering diverse study levels from Bachelor's to Doctoral and Medical Degrees. This diverse group ensures that EUGLOH's interdisciplinary spirit is brought to life through the voices of students from various faculties and cultural backgrounds.

On October 2, **Florabelle Cabarrubias led the first general meeting**, warmly welcoming the new members. She introduced them to the structure of the local student board and the broader EUGLOH community, providing guidance to ease their onboarding journey. Each member was assigned to a local student board team and a work package group, where they'll represent their peers and make meaningful contributions as part of EUGLOH.

The first team-building event was held on October 19, giving everyone a chance to get to know each other and begin building bonds that will last throughout their time in EUGLOH. We hope they feel a true sense of belonging and warmth here—because, in EUGLOH, we grow together.

Another excellence at the Local Student Board!

Hamdan Lujain Ahmad Samih to receive Stipendium Hungaricum Excellence award! 🎉

I am very pleased and delighted to be chosen as an awardee of the **Stipendium Hungaricum Excellence!** It was an outstanding accomplishment that I am so proud of! EUGLOH has been always a great example of success and outstanding members, it always influences and empowers every student to achieve more and more and to look forward toward to achieving their aims. To many more wins with SZTE and EUGLOH!

Hamdan Lujain Ahmad Samih, EUGLOH LSB member (External relations and WP3 member) and Year 2 Representative of the Faculty of Dentistry

CONGRATULATIONS from the whole EUGLOH USZ Team! 🎉

Certificate of Advanced Studies in Global Health

Next round is open now!

Dear Professors, Dear Teachers,

👉 The EUGLOH Certificate of Advanced Studies in Global Health programme addresses the complex interrelationships between health, the environment and society, which cannot be researched solely on a subject-specific basis but require trans- and interdisciplinary approaches. It offers highly motivated students the opportunity to engage in dialogue with different disciplines in the global health sector during their studies, preparing them for careers in study, research and practice to improve health and achieve health equity for all people worldwide.

The qualification consisting of at least **17 ECTS-credits over the course of two semesters**, is completed alongside the main degree subject. It allows students to explore beyond the scope of their current disciplines and gain a broader perspective, increasing their employability in the future.

- **Target Group:** Master students, PhD students or students in their 7th semester or higher in undergraduate programmes longer than 6 semesters (such as medical school, law, etc.).
- **Number of places: 30**
- **This year's essay topic is: What are the implications of mass vaccinations? Please argue from a multidisciplinary perspective and include a personal opinion.**

! 2 information sessions available, where students can ask questions !

- 26 November 16:00 (CET) ([registration here](#))
- 14 January 2025 16:00 (CET) ([registration here](#)).

Good luck with your application! 😎

Clinical Legal Education

Professor of University of Alcalá seeking partnership

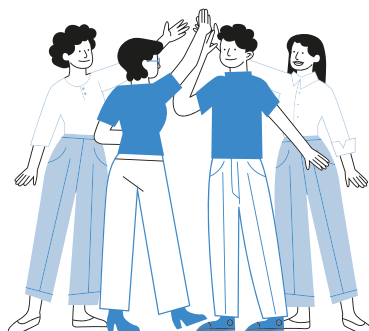

Miguel Ángel Ramiro, a professor at the **University of Alcalá**, is **seeking partners** within the EUGLOH alliance to collaborate on a course proposal titled "Clinical Legal Education: The Rights of People Living with HIV."

👉 This proposal aims to find partners in the EUGLOH alliance who share the same interests in **legal education innovation, knowledge transfer and applied research in the field of human rights**.

👉 These three tasks would be channeled through clinical legal education focused on the legal literacy of people with a disability or chronic illness, especially HIV, and through research on the legal determinants of health that affect them.

This proposal can be articulated as a course that can be taught in any of the universities that make up the EUGLOH alliance if there is no legal clinic in the Faculty of Law or as a space for reflection in which different legal clinics can share knowledge about legal education, knowledge transfer and applied research.

If you are interested, please contact Miguel Ángel Ramiro by clicking here.

New opportunity for early career researchers

A French Ministry launched program matched to the EUGLOH theme

WHAT? Post-doc scholarship - **MOPGA Make Our Planet Great Again**

WHEN? 2024-2025

WHERE? France

Official website: <https://www.campusfrance.org/en/mopga-2025>

! Scholarship: 2500 €/month

! Length: 12 months

The Make Our Planet Great Again (MOPGA) call for applications is intended to welcome at least 60 early career researchers wishing to carry out their research in France. The program is funded by the French Ministry for Europe and Foreign Affairs, in collaboration with the French Ministry for Higher Education and Research, and implemented by Campus France.

A way to connect our researchers and start cooperation in the following topics:

- Earth systems
- Climate change and sustainability
- Energy transition
- Societal challenges of environmental issues
- Human, animal and ecosystem health as part as a "One Health" approach.

WHO MAY APPLY?

- Foreign researchers holding a doctoral degree for less than 5 years
- No nationality restrictions (except France)
- 60 fellowships will be awarded for a 12-month period from September 2025
- This fellowship includes the following benefits :
- Monthly allowance of 2,500 euros
- Moving allowance of 500 euros
- Health Insurance plan covering civil liability and repatriation assistance until the MOPGA Fellow's registration to the French Social Security Scheme
- Complementary Health Insurance plan covering civil liability and repatriation assistance once the Social Security registration process is effective.
