## Transversal meeting of WP5 and WP8 in Paris

### Let's see what our colleagues were up to!

👉 Colleagues represented the University of Szeged in Paris!

📌 The main elements that were discussed are the application of the operational goals and specific goals of WP5. These goals should always be applied and considered in every project aspect (e.g. EUGLOH Hub, trainings and courses, and conferences). The creation of EUGLOH hub and the collaboration between WP5 and WP8 representatives for a more fruitful work. For WP8, the main focus was on reporting, main messages and joint communication messages.

📌 The outcome of the event was fruitful despite of the limited time. There are some topics that could have given more focused and time but nonetheless the schedule was followed and was given a substantial attention.

🌍 Despite of continuous search in defining the operational and specific goals of WP5 there should also be a substantial action. A solution that is tangible and SMART where every partner university could find a compromise and unity in it. In addition, the possibility of OPEN CALL for project funding is also a great venture for students, admins, and staff to come up with their project with the aid of EUGLOH fund and guided collaboration.” - **Ace Pagkaliwangan**

*“The meeting was productive and the goals and the steps towards them got clear.”* – **Bianka Vas, WP8 LSB Student Representative**

Ace Pagkaliwangan, Macarena Furque, Dr.  
Anita Kéri, Bianka Vas, Dr. Balázs Révész

## WP 7 also meets in Paris this fall!

### Let's see what our colleagues were up to in external relations!

👉 Colleagues represented the University of Szeged in Paris once again for WP 7!

📍 "I think it is really important for us at this point to discuss external relations and the approach for this, for the alliance. As the main European ecosystem is settling up right now which gives us a great opportunity to collaborate with other big organizations to get credibility and visibility.

Also making such connections will be in favour of the sustainability of the alliance, where comes the point of talking to other WP of course, as all of us have to converge at some point in making this project feasible. EB is going to get the strategy document and explanation from Delphine soon, and I hope we move forward enthusiastically with the road map." - **Divyanshi Divyanshi, LSB Student Representative**

📍 "When developing the external partnerships of the alliance, we must consider the already existing professional network of each member university, and their experience and expertise within that particular environment. Some types of partnerships where the cooperation will remain relatively low profile, the role of individual member universities in approaching new partners, in discussions and arrangements, and in the management of that particular partnership will be invaluable. This independence will also come with some level accountability for the productivity of that partnership. More structural high profile partnerships will have to be managed on the alliance level. These differences between different partnership types must be clearly defined and properly managed in order to successfully extend the network of the alliance." - **Zsolt Bereczki, WP7 Academic Lead for USZ**

# Call for Funds open at WP2 task group of Joint Learning Pathways

## 👉 WHAT INITIATIVES CAN BE SUPPORTED?

The learning activity must have an **interdisciplinary or crossdisciplinary focus** and have a relevance to society and global health, in a broad sense. The pedagogical methods used have to be student centered, innovative and fit for the purpose. The learning activity should help the students to develop their transversal skills, as defined in the EUGLOH Competences Framework. All teams must have teachers from at least two EUGLOH partners (in the case of a joint programme; at least three partners).

## 👉 HOW TO APPLY FOR FUNDING

There are three possible categories under which you can apply for funding (see below). Under the description of each of these categories you will find the **templates**. Please, note that signatures are needed from the heads of departments (or dean, vice rector or other authorised level) at all the institutions involved, as well as the signatures from the participating teachers.

! The next deadline for applications is 1 February 2025 23:59 CET. The proposals have to be sent by e-mail to the local EUGLOH offices of the partners involved. The local EUGLOH offices will make a preliminary assessment of the proposals and might ask for revisions. Feel free to reach out to the EUGLOH officers at your university before the deadline to get support. [Find contact information here](#).

The calls are recurring and the following deadline will be 1 October 2025.

## 👉 SELECTION, MONITORING AND IMPLEMENTATION OF THE PROJECTS

Applications will be carefully reviewed and the results of the call will be communicated in April 2025. A brief progress report (1 page) on the state of all seed-funded projects is requested four months after they have been selected. A final report is required at the completion of the project about its implementation, the challenges faced during the co-creation process, and the next actions that will be taken.

The courses, COILs and programmes developed with the EUGLOH funding do not have to start running during the current year.

Instructions about how the funding can be used and the financial reporting will be provided by the respective institutions involved in the approved proposals.

## 👉 HOW TO FIND TEACHERS FOR COLLABORATION

Make use of the [EUGLOH Visiting Guest Lecturer Programme](#) to find teachers at the other EUGLOH partner universities to collaborate with.

# Develop Joint Courses, Coils, and Programmes with EUGLOH Funding Seed Money Programme Open!

Team up with teachers from other EUGLOH partners and apply for funding to develop either a Collaborative Online International Learning (COIL), a new EUGLOH course or even a new joint programme.

## 👉 WHAT INITIATIVES CAN BE SUPPORTED?
