

Faculty of Dentistry UNIVERSITY OF SZEGED

SZTH

About the Faculty

University of Szeged has an outstanding position among the best universities in the world. According to the QS Universities ranking list the University took the 470th place in 2019. The University and the Faculty of Dentistry provides high-quality learning environment for the students, with emphasis on **practical teaching**. The University uses the **ECTS credit system** which is used in the European Union and in many other countries.

The Faculty of Dentistry is an exceptional centre for education, scientific work and patient care, located in the heart of the city of Szeged. The Faculty offers a **EU-compatible educational program** in which the curriculum is harmonized with the European standards of training dental profession. The program follows the guidelines of ADEE „Profile and Competences for the European Dentist”. After a successful completion of the program students are awarded the title Doctor of Dental Medicine (DMD).

For further information about the curriculum please check the website below:

Program for International Students

Dentist's Undivided Master's Degree in English language (10 semesters), which is an undivided five-year EU-compatible educational program designed in a modular fashion (basic, pre-clinical, clinical module).

The five-year program is designed to unify the basic and clinical sciences. In the first two years, which is the **basic module**, the students are taught basic sciences – medical and dental courses – which are the foundation of clinical dentistry. Students meet patients already in the summer practice after the first year, when they can observe treatments and help as dental assistants. Teaching of dental subjects starts already in the first year. Students have laboratory practices on manikins from the 2nd year to get the required knowledge for the clinical practices. Here students can learn the methods, posture, dental materials and instruments - all these will be necessary in patient treatment.

The **preclinical module** in the 3rd year serves to learn disciplines for general medical knowledge and for the theoretical background of oral diseases. After the third year more emphasis is placed on the study of dental diseases and their treatment. The last two years – **clinical module** – serve the intensive clinical study of each of the various disciplines of dentistry, where our students treat real patients under close supervision of the tutors.

Application Requirements in General

To apply for a full-time English language Health Science program at the University of Szeged, you need to complete the online registration <https://apply.u-szeged.hu>

- Applicants are required to be over the age of 18 in the year of application.

Services of the Faculty for International Students

(mentors, dormitory, events, student life in general)

Aside from attending lectures and laboratory classes, time outside the classroom offers a wide range of exciting events for the students. Dental students have been famous for their solidarity and jointly organized programs. Whether you wish to find fellow students in sports activities or in social life, the variety of programs will provide you with ample opportunity to meet with them.

The Foreign Students' Support Assistant of the Dean's Office at the Faculty of Dentistry helps the foreign student with all their non-academic complaints, problems and concerns in everyday life, in order to help them managing their matters during their stay in Szeged.

Student residence is provided to those international students who hold a governmental scholarship, such as the Stipendium Hungaricum. These dormitories also provide facilities for sports, cultural and other social events. Those who rent an apartment may use the online university database or the Facebook page for apartments to rent.
