

Anesthesiology and Intensive Care	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Barna Babik	pneumonia
Internal Medicine	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Tamas Molnar	Crohn's disease, colitis ulcerosa
Zoltan Ruzsa	myocardial infarction, coronary disease, coronary syndrome
Attila Farkas	cardiac failure, familial hypercholesterolemia
Robert Takacs	renal disease, cardiovascular diseases, obesity, type 2 diabetes
Zita Borbenyi	acute myeloid leukaemia, Hodgkin's lymphoma, amyloidosis, Mantle cell lymphoma, myelodysplastic syndrome, myelofibrosis
Laszlo Czako	short bowel syndrome, IgG4-related disease
Robert Sepp	hypertrophic cardiomyopathy, cardiomyopathies
Edit Hajdu	hepatitis B, COVID-19, Clostridium difficile
Szabolcs Modok, MD, PhD	mantle cell lymphoma, multiple myeloma, follicular lymphoma, diffuse large B-cell lymphoma, myelofibrosis, myelodysplasia
Szabolcs Nyiraty	hypertension
Zoltan Szepes	colitis ulcerosa, colitis
Tamas Varkonyi	type 2 diabetes, neuropathy
Laszlo Zsolt Bito	nephropathy
Imola Fejes	hypertension
Laszlo Nagy	myocardial infarction, stroke
Zoltan Ondrik	renal diseases
Zsuzsanna Valkusz	diabetes, gastroenteropancreatic neuroendocrine tumour
Mate Vamos	ischaemic stroke, cardiovascular diseases, atrial fibrillation
Dermatology and Allergology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Lajos Kemeny	atopic dermatitis (adult, pediatric), psoriasis, alopecia areata, chronic spontaneous urticaria, prurigo nodularis, hidradenitis suppurativa
Rolland Gyulai	viteligo, psoriasis, septic arthritis, hidradenitis suppurativa, alopecia, atopic dermatitis, squamous cell carcinoma
Zsuzsanna Bata	pemphigus, atopic dermatitis, dermatomyositis, urticaria
Eszter Baltas	melanoma, psoriasis
Döniz Degovics	hidradenitis suppurativa
Aniko Maraz	solid tumours
Family Medicine	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Albert Varga	hypertension, cardiac failure, increased lipoprotein (a) levels, cardiovascular events, mechanical dyssynchrony, type

	1 diabetes, pulmonary arterial hypertension, atrial fibrillation, renal diseases
Pediatrics	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Csaba Bereczki	colitis ulcerosa, iron-deficiency anemia, proteinuria, atypical hemolytic uremic syndrome (aHUS), Crohn's disease, adeno-associated viruses
Krisztina Kapornai	Tourette's syndrome, autism spectrum disorder, schizophrenia
Neurology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Peter Klivenyi	stroke, Parkinson's disease, transthyretin amyloid polineuropathy, cerebral amyloid angiopathy, multiple sclerosis, myasthenia gravis
Laszlo Vecsei	Pompe disease, relapsing-remitting multiple sclerosis, neuromyelitis optica spectrum disorder
Oncology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Aliz Nikolenyi	breast cancers
Katalin Hideghety	squamous cell carcinoma in the head and neck region
Judit Olah	prostate cancer, melanoma, squamous cell carcinoma, bladder cancer, hepatocellular carcinoma, Clear cell renal cell carcinoma (ccRCC), metastatic melanoma, EOC
Rheumatology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Attila Balog	arthritis psoriatica, Sjögren's syndrome, inflammatory spinal disease, giant cell arteritis (GCA)
Laszlo Kovacs	systemic sclerosis, systemic lupus, Sjögren's syndrome
Daniella Ladoczky-Hullo	rheumatoid arthritis
Ophtalmology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Edit Toth-Molnar	macular degeneration, diabetic macular edema, neurotrophic keratitis
Aron Szabo	glaucoma
Obstetrics and Gynaecology	
Principal investigator's full name	Indications of clinical trials (2022-2024)
Attila Keresztúri	contraception, endometriosis
Gabor Nemeth	endometriosis
