

Morgan Stanley

Where Code Creates Change

Quantitative Developer Internship Autumn 2020

Given the continued spread of COVID-19 (coronavirus), all interviews will be conducted by phone or virtual connection to protect our candidates and employees.

Location: Budapest, Lechner Ödön fasor 8.

Start date: Continuous

Contract: 20/30/40 hours-a-week contract (flexible)

Do you like coding and working with numbers? If so, this might be for you. We are looking for Quantitative Developer Interns in multiple areas who use their combined technical and numerical skills to support trading and management decisions in New York and London.

Based on your preference and skills you can either:

- Build models to calculate prices and risks for different assets using a statistical techniques or Monte Carlo simulations or,
- Fetch data from different sources and generate analysis with top notch visualization to help decision making or,
- Apply machine learning techniques to implement automated trading bots or,
- Design and implement core calculation libraries used by multiple internal applications or,
- Build web applications to monitor market movements or to provide detailed performance reports to the management.

We offer:

- High impact projects with peers in New York and London, your contributions will be visible
- Opportunity to gain insight into the world of investment banking
- Dedicated mentoring program and a wide range of technical and soft skill trainings
- Flexible working hours and the possibility to work from home
- Potential full-time offer upon graduation

You have:

- Ongoing studies (BSc , MSc or PhD) in Computer Science, Mathematics, Physics, Engineering, Economics or similar disciplines
- Hands-on experience in any widespread programming language (Python, C++, Java, C#, JavaScript, Perl, Ruby, PHP, R etc.)
- Affinity towards mathematics, crunching numbers and visualizing relations between them
- Eagerness to learn new technologies and the mechanics of the business
- Good command of written and verbal communication in English

You might also have:

- Linux experience or database (SQL) knowledge is a plus

Selection process: You will participate in quick, 3-steps-long selection process. After 2 phone interviews (HR and Technical), the last step is a virtual interview.

If you are interested in the above opportunity, please apply [here](#) by submitting your English CV.
