

# Smart Online Education

---

Information for students III.

*Dear Student,*

*I am pleased to inform you that the measures and information materials in connection with the extraordinary online education at the **University of Szeged** have been collected on the SZTE website by my colleagues in order to help the work of both students and lecturers during this period. By constantly sharing up-to-date information, our goal is to make online education as smooth as possible for you.*

*In the Coursera for SZTE program, you can enrol for classes of the best instructors in the world, and as a result of the cooperation between Coursera and SZTE, you can obtain a certificate of completion of the courses free of charge. In the present document, I recommend the most popular courses to you. Choose according to your interests. Take the opportunity and study in international courses.*

*I wish you much success with your studies.*

*Issued on 24 April, 2020, in Szeged*

*Sgd. Prof. Dr. Klára Gellén  
Vice-Rector of Education  
Chair of Operative Committee on Distance Education*

Contents:

1. Online Education Website - Compass for Online Education
2. Coospace and Neptun settings - ideas so that you don't miss anything
3. Online classes in the scenes of Coospace - new tool on the platform
4. Coursera for SZTE - stars for university citizens in Szeged as well
5. University of Szeged (SZTE) Facebook page chatbot (BerciBot)

# 1. Online Education Website

## Compass for Online Education

SZTE's **Online Education website** has been completed, where the current official information materials can be found in one place. The site offers additional help by providing useful content, whether it comes to life skills or expanding library services online.

Please study the information materials on the website prepared by the Operative Committee on Distance Education and the information provided by the organizational units of SZTE. If you have any **questions or comments** about online education or examination, let us know at the e-mail address [onlineoktatas@rekt.u-szeged.hu](mailto:onlineoktatas@rekt.u-szeged.hu).

The screenshot shows the University of Szeged's online education website. The header includes the university logo and name, a search bar, and a navigation menu. The main content area is titled "Online education" and includes a date of 2020. April 07, a date of 7th April 2020, and a message addressed to "Dear University Citizens". The message discusses the prevention of the new coronavirus infection in accordance with Article 4(b) of the Government Decree No. 41/2020 (III.11.). A sidebar on the left contains a table of contents with links to COVID-19, ONLINE EDUCATION, PROSPECTIVE STUDENTS, ADMITTED STUDENTS, PARENTS, and ALMA MATER. A sidebar on the right contains a "Links" section with links to Neptun, Coospace, Modulo, HSZI, Felvi.hu, and SZTE facebook, and a "Faculties" section.

In addition to the website, we provide official information about online education to our students through the following channels. You may also want to visit these:

- [Student Information Scene – Coospace](#)
- [Homepage of Coospace](#)
- [Homepage of Neptun](#)
- [Neptun messages](#)

It is important that you **keep up-to-date** with the information posted on these platforms during the period of extraordinary online education.

## 2. CooSpace and Neptun settings ideas so that you don't miss anything

The video below can help you with the essential settings of **CooSpace**. It also contains, among other things, the setting possibilities of the system messages. Receiving **event notifications** will help you to get information in email about the changes in the scenes.

**Neptun** also enables you to send **event notifications** in email. When you log into **Neptun**, you have to choose **Settings** in the **Messages** window on the left hand side. If you click on **Automatic notifications** in the middle of the page, the list of results will appear where you can set the sending and receiving of emails by ticking the appropriate boxes at the end of the rows.

## 3. Online classes in the scenes of CooSpace tool on the platform

Within the framework of a recently completed **CooSpace** development, it is now possible to hold an **online class in CooSpace**, so please pay frequent visits to the **CooSpace** scenes of the courses you have taken this semester. The online class can be seen in the scene under *Attendance* in case the instructor offers it. You can join the online class by clicking on it.

## 4. Coursera for SZTE stars for university citizens in Szeged as well

Thanks to **Coursera for SZTE**, all citizens of the University of Szeged can enrol for the biggest education platform of the world, where you can choose from the courses of 190 universities and companies. According to the cooperation agreement between Coursera and the University of Szeged, you can obtain a certificate of course completion free of charge.

The most popular Coursera courses are:

- The largest course of Coursera, with 2 million students, which is available in Hungarian as well, translated by the University of Szeged: **Learning how to learn**
- One of Coursera's founders and an instructor at Stanford University is, **Andrew Ng**. His popular course is **Machine Learning**.
- A Nobel Prize winner economist and author of several bestsellers is, **Robert Schiller**. His course is : **Financial Markets**
- **Laurie Santos**, is an American psychologist who does happiness research and teaches at Yale University. Her course is **The Science of Well-Being**
- **Helen Ward** and **Neil Ferguson**, are professors at Imperial College London. Their topical course is **Science Matters: Let's Talk About COVID-19**

We recommend to you the column **Learn by doing with guided projects!**, which can be reached from the home page of Coursera. In this column, studies can be conducted, among other topics, in the field of data visualization with the help of remote desktop access and artificial intelligence.

## 5. SZTE facebook page chatbot Bercibot

A chatbot is also helping to inform students at the University of Szeged. BerciBot provides information for students in Hungarian and in English about the extraordinary education, about degree completion, and the information about student hostel placement.

Since 18 March, a university chatbot has been providing information for students about the extraordinary education that was introduced because of the national state of emergency.

The service sends short messages, among other things, about the following issues: when the semester will end, what the official scene of distance education is, what happens to practice courses and thesis defences, and who can stay in university student hostels. Berci-bot can be accessed on the official [Facebook page](#) of the University of Szeged.
