

SZTE UNIVERSITY OF SZEGED

**Faculty of Health Sciences
and Social Studies
UNIVERSITY OF SZEGED**

ABOUT THE FACULTY

Our programs aim to train professionals with the highest level of European theoretical and practical knowledge in the fields of prevention, paramedical treatments, rehabilitation and health promotion. For several decades, our Faculty has been training nurses, physiotherapists, social workers and nowadays dental hygienists, midwives and ambulance officers.

Our programs consist of different supervised clinical practices for developing professional skills. Since these professions are highly practice-oriented, the practical courses take place in small groups. During the study time students have the opportunity to get acquainted with special complex therapeutic methods.
