

**SZTE** UNIVERSITY  
OF SZEGED

**Faculty of Dentistry**  
**UNIVERSITY OF SZEGED**

## ABOUT THE FACULTY

The University of Szeged is the best Hungarian University according to the 2023 QS World University Ranking – with a prestigious overall position of 551-560. Also, in 2024 in the fields of human biology and dentistry, the University of Szeged as the very first university from Hungary has achieved the 201-300th place among the best universities in the world in the Global Ranking of Academic Subjects by ShanghaiRanking. The University and the Faculty of Dentistry provides high-quality learning environment for students, with a great emphasis on **practical teaching**. The University uses the **ECTS credit system** which is used in the European Union and in many other countries. The Faculty of Dentistry is an exceptional centre for education, scientific work and patient care, located in the heart of the city of Szeged. The Faculty offers an **EU-compatible educational programme**; the curriculum is harmonized with the European standards of training dental profession. The programme also follows the guidelines of ADEE „Profile and Competences for the European Dentist“. After a successful completion of the training programme, students are awarded the title Doctor of Dental Medicine (DMD).

## PROGRAMS FOR INTERNATIONAL STUDENTS

**Doctor of Dental Medicine (DMD)**: The undivided Master's degree in dentistry in English language provides a five-year (10 semesters) EU-compatible educational program designed in a modular fashion (basic, preclinical and clinical module).

The five-year program is designed to unify the basic and clinical sciences. In the first two years, (called basic module), students are taught the basic sciences – medical and dental courses – which are the foundation of clinical dentistry. Students meet patients already in the summer practice after the first year, where they can observe treatments and help as dental assistants. Teaching of dental subjects starts already in the first year. Students have laboratory practices on manikins from the second year to acquire the knowledge that is essential for the clinical practices. In the training laboratory they will learn about the dental materials and instruments and will acquire various methods and manoeuvres on phantom heads. The preclinical module in the third year prepares students for the clinical patient care by focusing on mastering the manual skills, that will be applied later on in clinical module. After the third year more emphasis is placed on the study of dental diseases and their clinical. The last two years – clinical module – serve the intensive clinical study of each of the various disciplines of dentistry, where students treat real patients under close supervision of their tutors.

## APPLICATION REQUIREMENTS

To apply for a full-time English language dentistry program of the University of Szeged, you need to complete the online registration <https://apply.u-szeged.hu>

- Applicants are required to be over the age of 18 in the year of application.
- Applications are accepted from graduates of accredited high schools or colleges/universities.

According to the decision of the Admission Committee of the Faculty of Dentistry of the University of Szeged, students who have failed any subject in the final year of their high school studies are not entitled to apply to our programs.

- Applicants are required to sit for an entrance examination. (Biology, Chemistry and English language).
- Applicants are allowed to participate in a maximum of two examinations during one application period if the chance is offered by the University of Szeged.
- Students who have successfully pursued dental medicine studies in English language at other accredited universities can apply for admission without being obliged to take an entrance examination.

## SERVICES OF THE FACULTY FOR INTERNATIONAL STUDENTS

Aside from attending lectures and laboratory classes, time outside the classroom offers a wide range of exciting events for students. Dental students have been famous for their solidarity and jointly organized programs. Read more about SZTE student life at: <https://u-szeged.hu/livinginszeged>.

Student residence is provided to those international students who hold a governmental scholarship, such as the Stipendium Hungaricum. Those who rent an apartment may use the online university database or the Facebook page dedicated to apartments to rent.
