Requirements for the successful completion of the course:

At the end of each lecture the students can take a test of 4 questions about the material of the given lecture through the Coospace. Writing the mini tests is not mandatory however, those students who achieve at least 80% of the maximum points from the mini tests will receive an allowance that we lower the limit of each grade of the mandatory test colloquium by 5%. In order to accept the mini tests results, students can miss only 2 of the tests overall during the semester.

Proofs of the reason for absences – **not later than the week after the absence** – have to be scanned and presented to the official e-mail of the Secretariat of the Department of Surgery which is office.surg@med.u-szeged.hu. In case of proven absence, the points of the missed test will not be counted in the final assessment. The unjustified absences will cause the mini-test results 0 point for each question.

The lack of internet or bad connection should be indicated when writing the mini tests to the supervisor surgeon who can give the student a stamped paper, to be able to finish the test. Students have to **send the proof (a screenshot) of the bad connection right away after the lecture to the official e-mail address of the secretariat (office.surg@med.u-szeged.hu)**. We **cannot accept the paper test results without the sent proof**.

The semester's final exam qualification (5) is a mandatory written exam that takes place in the TIK Computer Cabinet at the announced time. Writing the test is obligatory. **Failed test examination is also retaken in the form of a written exam. An oral examination** (according to the previously announced topic list) **can be taken only after the failed second written exam**. Without participation at two written exams students cannot take the oral exam.
