9<sup>TH</sup>  
INTERNATIONAL  
SYMPOSIUM

on objective  
measures  
in auditory  
implants

## First Announcement

# WELCOME TO SZEGED

We are glad to announce that the 9<sup>th</sup> International Symposium on Objective Measures in Auditory Implants will be held in Szeged, Hungary between 15-18 June 2016.

The city is situated on the banks of River Tisza with a population of almost 170,000. It lies along Hungary's south-eastern border. Szeged has a very pleasant climate and is therefore often called the city of sunshine. Also, there are several hotels and restaurants with excellent domestic and international cuisine available to meet everyone's needs.

The Symposium is hosted by the Department of Audiology, University of Szeged. Many outstanding professors have been working at the university, including Nobel Prize winner Albert Szent-Györgyi, who was first to isolate vitamin C, extracting it from the world famous Szeged paprika.

It is located just on 80-minute driving distance from Budapest Ferihegy Airport through the M5 motorway or there is an every-hour Intercity train service connecting Budapest and Szeged.

# ORGANISING COMMITTEE

## Chair

József Géza Kiss (Szeged, Hungary)

## Co-Chair

László Rovó (Szeged, Hungary)

## LOCAL SCIENTIFIC ADVISORY BOARD

Imre Gerlinger (Pécs, Hungary)

Gábor Katona (Budapest, Hungary)

Vera Matievics (Szeged, Hungary)

# CONGRESS VENUE

The University of Szeged is one of Hungary's most important universities and is among the most prominent higher education institutions in Central Europe.

The venue of the Symposium will be the unique and modern TIK Congress Centre, situated in the heart of the city. Being a part of the University of Szeged, it is hosting more than 200 business, cultural, scientific and educational events every year. It is the only Green Congress Centre in Hungary awarded of „Green Office Improvement 2009” Prize and „Green Office Creativity 2010” Prize.

**We are sure Szeged is the perfect venue of the 9<sup>th</sup> International Symposium on Objective Measures in Auditory Implants. TIK Congress Centre, University of Szeged – where knowledge and challenge meet!**
