

## Marie HERR-BREGET, PharmD, PhD, Professor of Public Health

### Affiliation:

University of Versailles Saint-Quentin-en-Yvelines  
2, avenue de la source de la Bièvre  
78180 Montigny-le-Bretonneux, FRANCE  
marie.herr@uvsq.fr

Epidemiology and Public Health Departement  
Raymond Poincaré Hospital, AP-HP. Université Paris-Saclay  
104, bd Raymond Poincaré  
92280 Garches, FRANCE  
marie.herr@aphp.fr

### Degrees:

2020 Accreditation to supervise research, University of Versailles Saint-Quentin-en-Yvelines  
2011 PhD in Public Health, Doctoral School of Public Health ED420, Paris  
2009 Doctor of Pharmacy, University of Pharmaceutical Sciences Paris Descartes  
2007 Master in Public Health, University of Pharmaceutical Sciences Paris Descartes

### Professional appointments:

2020-            Professor of Public Health at University of Versailles Saint-Quentin-en-Yvelines  
                  Head of Master 2 Methodology for Public Health Interventions, University Paris-Saclay  
                  Research fellow at Centre for Epidemiology and Population Health  
2016-2020    Associate professor of Public Health at University of Versailles Saint-Quentin-en-Yvelines  
                  Research fellow at UMR 1168 Inserm-University Versailles Saint-Quentin-en-Yvelines  
2015-2016    Research fellow at UMR 1027 Inserm- University of Toulouse  
2011-2015    Junior lecturer in Public Health at University of Versailles Saint-Quentin-en-Yvelines  
                  Research fellow at EA 2506, University of Versailles Saint-Quentin-en-Yvelines

### Lectures:

Health care systems, methods in clinical research, epidemiology, evaluation of public health interventions, continuous evaluation of healthcare products

### Research interest:

Ageing and pharmacoepidemiology: frailty, polypharmacy, potentially inappropriate prescribing

### Selection of publications:

Chauvin P, Fustinoni S, Seematter L, Herr M, Santos-Eggimann B. Potentially inappropriate prescriptions: associations with the health insurance contract and the quality of the patient–physician relationship? Health Policy (in press).
